We desire to call the attention of the voters to the necessity of better accommodation of the school in Dist. No. 3. As will be seen by our report 141 scholars attended these three schools during the winter term just closed, and at the same time there were several legal scholars, probably 15 in the district not attending, so that with the increase likely to follow this spring it is safe to say that there will be at least 160 scholars to be provided for. We therefore recommend that the remaining unfinished room in the school building be fitted up for school purposes. To do this and the repairs required in the other districts will make it necessary to raise at least \$500. perhaps \$600. The \$1000 extra money raised last year for school purposes has been nearly all expended, there being a small balance standing to the credit of each of the several districts. It will therefore be seen that if we are to have as much schooling this year as last with another room in No. 3, it will require about \$1300. above the amount required by law, and it is our opinion that this amount should be raised.
